quaistechnodocks.com

Quais TechnoDocks has been manufacturing, and selling aluminium products for the outdoors market in Quebec for several years.

Quais TechnoDocks offers a number of marine platforms such as:

- docks on wheels;
- floating docks;
- swimming docks;
- gangways;
- boat lifts.

Of superior quality TechnoDocks & gangways are made of aluminum and wood to make them light, solid and tough. **Quai TechnoDocks** are modular, easy to take apart and reinstall, and allow owners to choose among a wide variety of practical configurations. Furthermore, each dock has an interlocking system for adding units to customize and harmonize the docks to the customer's needs.

Characteristics:

- aluminum structures;
- removable panels;
- stainless nuts and bolts;
- galvanized steel posts;
- vinyl post caps;
- red cedar flooring;
- accessory rails (no drilling).

BENEFITS

Modular system

Unlimited configurations

Easy installation
1 to 2 persons
